

Congress of the United States
Washington, DC 20515

July 31, 2023

The Honorable Christi Grimm
Inspector General
Office of Inspector General
Department of Health and Human Services
330 Independence Avenue, SW
Washington, DC 20201

Dear Inspector General Grimm:

It has come to our attention that Planned Parenthood and its affiliates were provided with over \$20 million from the Provider Relief Fund (PRF).¹ We request that you review the PRF applications submitted by Planned Parenthood and its affiliates to determine whether the organization provided false or misleading information to obtain access to PRF funds.

The PRF was established by Congress through the Coronavirus Aid, Relief, and Economic Security (CARES) Act. This fund was designed to provide financial assistance to healthcare providers and health systems that were limited with in-person visits and were forced to cancel elective procedures to reduce the spread of COVID-19.² Furthermore, entities that received these funds needed to certify that they provided testing or care for COVID-19 cases.³

Congress intentionally designed the CARES Act so that no federal funding appropriated through the bill could be used on abortion.⁴ As the Inspector General for the Department of Health and Human Services (HHS), you have the authority to conduct audits and investigations into allegations of waste, fraud, and abuse for HHS-administered programs and funding opportunities.

Planned Parenthood and its affiliates' efforts are centered around abortion. Despite the pandemic and lockdown policies, in its 2020-2021 annual report, Planned Parenthood and its affiliates performed 383,460 abortions.⁵ This was an increase from the previous year, a time when Planned Parenthood performed 354,871 abortions.⁶ Planned Parenthood also provided fewer health services during the pandemic. Breast screenings fell by more than 30%, gynecological exams decreased by 39%, and total pregnancy tests decreased by 14%.⁷

While most healthcare providers were financially strained by the pandemic, Planned Parenthood's financial records show that the organization was not significantly impacted. In its 2020-2021 Annual

Report, Planned Parenthood boasted \$1.7 billion in revenue and possessed more than \$2.5 billion in net assets.⁸ Even during the height of the pandemic, Planned Parenthood was able to maintain positive cash flow when many small businesses and actual healthcare providers were forced to close their doors to patients.

Planned Parenthood's financial statements speak for themselves. This organization did not possess a financial need for funds distributed through the PRF, nor should taxpayer dollars be given toward the provision of abortions. We request that you review the applications submitted by Planned Parenthood to determine whether the organization provided false or misleading information to obtain access to PRF funds. If it is discovered that Planned Parenthood intentionally falsified information on its applications, we ask that you submit a criminal or civil referral to the U.S. Department of Justice.

Thank you for your important work and attention to this matter.

Sincerely,

Josh Brecheen
